Best Practice 2020-21

Best Practice – 1

Organizing covid-19 and health awareness programme.

Objective:

1. To create health awareness among students and teachers.
2. To create covid-19 awareness among society.
3. To follow the covid-19 guidelines.

Context:

To live a good life everybody must have healthy mind and body. Today whole world is facing covid -19 pandemic situation .In current scenario everybody is worried about how to face this situation and keep ourselves healthy so keeping this in mind college taken various steps and organizes different programmes.

The Practice:

Our college organizes some health awareness programme as well as several steps are taken about covid -19 awareness:

1. College follows all the guidelines received from government of Maharashtra, SPPU Affilating University and UGC.
2. For personal hygiene hand sanitizer sensor machine is install, to avoid personnel contact face reorganization biometric machine is install for staff attendance, body temperature of each and every person interning in college campus is checked.
3. Wearing mask and social distancing is strictly followed.

4. Our NCC cadets organizes social activity like distribution of mask and sanitizer to other state migrants and poor people. They also made video clips for covid -19 awarness for local people.
5. For mind and body fitness some programmes are organizes as follows:
 - a) NCC department organizes online yoga practice session for cadets
 - b) Fit India run is organizes by NCC,physical Education department and NSS in which staff members and students are participated.
 - c) A 15 days basic yoga certificate course is organized.

Evidence of success :

All programmes photo are documented. Due to strictly following rules of covid -19 we have very few cases of corona patients in first and second wave ,zero death rate is observed in our institute.

Problem encountered:

Due to careless nature of some students social distancing and wearing mask rules are violated some times.

Best Practice – 2

Organization of staff academy lecture series

Objective:

1. To share new ideas, subject knowledge among staff members .
2. To increase interaction between inter-disciplinary staff members.
3. To increase interest in other subject.

Context:

The teaching staff are master in their subjects also know about its discipline subject, but have little interest in other discipline subject. The main aim of this lecture series is to provide platform to teacher in covid-19 situation to share their subject knowledge , new ideas and on their interested topics.

The Practice :

Following proper covid -19 precautions staff academy lecture series is organizes as follows:

Sr.No.	Name of the teacher	department	Date	Topic	Numbers of participant
1	Prin.Dr. B.S.Pagar	Zoology	10/8/2020	Biodiversity	25
2	Prof.R.J.Kapade	Marathi	12/9/2020	Mai-Marathi	21

3	Prof.Dr.U.K.Pawar	Commerce	10/10/2020	Stress Management	20
4	Prof.Dr. N.B.Kothawade	Physics	10/11/2021	Physics and daily life	20

Evidence of success :

Attendance sheet and photographs are documented by concerned committee.

Principal Dr.B.S Pagar delivering lecture on Biodiversity.
